CONTENTS

PAGE

Organic Sulphur Compounds in Alberta Cracked Distillates. C. H. Amberg 1

Some Observations Concerning the Viscosity–Temperature Behaviour of Hydrocarbons. W. C. Winning . 9

Studies in Shale Oil. Part IX. Further Data on Emulsions and Sludges. Geo. E. Mapstone . . 16

Fuels and Lubricants for the Trans-Antarctic Expedition. D. L. Pratt, G. M. Christie, E. F. Coxon, and J. R. Lodwick 19

Some Open Questions Regarding Petroleum Origin. Benjamin T. Brooks 42

Obituary: **Arthur Frederick Castle** 46

Harmful Effects of Electrostatic Charges on Machinery and Lubricating Oils. T. Salomon 47

The Rheological Properties of Bitumens and Tars. E. N. Thrower 80

Obituaries: **John McGillivray Bownes** 94

Bernard Ernest Frederick Lillie 94

Some Problems of Petroleum Geology in Kuwait. A. F. Fox 95

The Consistency of Semi-Fluid Greases. J. O. Cliffe and J. W. Pearson 111

Alumina as a Column Packing in Gas Chromatography. C. G. Scott 118

Flow Properties of Distillates at Low Temperatures: a Review. J. F. Hutton 123

The Pumpability of Aviation Turbine Fuels at Low Temperatures. H. Strawson 129

Performance of the Oldershaw Column at Reduced Pressure. S. R. M. Ellis and R. M. Contractor . 147

The ASTM Colour Scale 153

Obituary: **George Wilmot Ingle Nokes** 154

Control of Marine Organisms in a Salt-Water Cooling System. D. H. Tullis, L. C. Neill, and A. T. Henderson 155

IP Tank Thermometers 167

The Molecular Structure of Heavy Petroleum Compounds. A. Hood, R. J. Clerc, and M. J. O'Neal . 168

Obituary: **Jean Louis Eugène Groff** 174

The Development, Testing, and Application of Petroleum Based Launching Lubricants. G. H. Clark and D. A. Davidson 175

Looking Ahead. On the Threshold of our Second Century. H. E. Snow 197

The Institute of Petroleum

Annual Report 205

Forty-sixth Annual General Meeting 214

Obituaries: **Andrew Morrison** 216

Ernest Patrick Pink 217

Hypoid Gear Lubricants and Additives. J. S. Elliott, N. E. F. Hitchcock, and E. D. Edwards . . 219

Measurement of Strata Dip: the Beamed Current Dipmeter. P. Threadgold 236

Kinetics of Oil Oxidation Inhibitors. K. U. Ingold 244

Processing of Low Temperature Tar Oil Fractions to Diesel Oils. S. K. Bose, A. K. Ganguli, N. G. Basak, and A. Lahiri 252

Measurement of Gas-Phase Saturation in a Porous Medium. R. W. Snell 259

Submarine Exploration for Oil. A Symposium by members of BP Exploration Co. Ltd. 263

Proposed Withdrawal of IP 18/53 286

CONTENTS

PAGE

The Potentialities of Coated Capillary Columns for Gas Chromatography in the Petroleum Industry. D. H. Desty, A. Goldup, and B. H. F. Whyman 287

Standardization of Lubricating Oil Engine Test Methods by the Institute of Petroleum. Report of the Engine Tests of Lubricants Panel of the Institute of Petroleum. N. Kendall 299

The Preparation and Infra-Red Spectra of the Three Ethyl*cyclo*pentenes, Methylene- and Ethylidene*cyclo*-pentane. S. Pinchas, J. Shabtai, J. Herling, and E. Gil-Av 311

A Method for the Determination of Trace Amounts of Water in Hydrocarbons. A. F. Pyrah and R. S. Roberton 316

Formula for Calculation of Lean Mixture Knocking Characteristics of Aviation Gasoline Grade 100/130. Raoul Niklasson 320

Theory of Acid Treatment of Limestone Formations. G. Rowan 321

A Rapid Method of Distillation for the Routine Quality Control of Refinery Products. W. H. Topham . 335

Load-Carrying Capacity Test for Oils. IAE Gear Machine. IP 166/60T 338

Obituary: **Reginald Killmaster Stratford** 342

Development of a Molar Volume Equation Suitable for the Structural Analysis of Hydrocarbons. M. L. Boyd and D. S. Montgomery 345

Development of a Molar Refraction Equation Suitable for the Structural Analysis of Hydrocarbons. M. L. Boyd and D. S. Montgomery 359

Variation of Fluid Properties with Elevation in High-Relief Oil Reservoirs. J. G. Roof 373
